MASS. EA 50.2: M38/17/996

Massachusetts Agri-Tourism Directory

Agricultural Tourism is fast becoming a popular pastime that offers enjoyment to tourists, and also gives farmers an opportunity to diversify their operation and attain economic growth.

In this Agri-Tourism Brochure, over 150 farms are listed offering various fun-filled activities such as hiking and/or cross-country skiing through a apple orchard, cutting your own Christmas tree , attending a Harvest Festival, picnicking, or just relaxing at a Bed & Breakfast where helping with the farm chores is a pleasant option.

These farms produce their goods to generate income and contribute to the region's economy. They also help preserve the open space and rural land that sustains our wildlife, as well as the beautiful scenery and environmental diversity.

The freshest fruits and vegetables are sold at many farmstands and some even offer delicious bakery products as well as craft items. Many farms provide hay/sleigh rides as well as individual and group tours.

Visit one of the many beautiful farms and enjoy the open space, scenic vistas and New England hospitality. We are sure you'll want to make a visit every season of the year!
